

WE ALWAYS GIVE 100%

- + Hygiene
- + Clean
- + Eco Friendly
- + Healthy

Spülboy glass washing units clean uncompromisingly effective and thus secure pure pleasure. But in combination with our original Spülboy glass washing tabs the cleaning performance is even more invincible.

In case of appropriate application Spülboy tabs guarantee a removal of E Coli & Pseudomonas bacteria up to 100% and Herpes HSV Type 1 virus up to 99%.

Spülboy always acts sustainably thus our tabs are completely biodegradable, especially skin- and environmental friendly.

By the way: Our Spülboy brush sanitizer grants extra portion hygiene. The special powder disinfects the brush inserts and enhances simultaneously the lifetime of middle brush and brush stripe. Everything clear!? Crystal clear!

SPÜLBOY® GOES BRAU!

Please visit us from 08. – 10.11.16 in hall 9 – booth 615.

We look forward seeing you!
