

## SPÜLBOY<sup>®</sup> – WISHES ALL HAPPY EASTER

We wish our customers and business partners around the world a happy Easter! Have a relaxed and blessed holidays!

Full of anticipation we look forward to the next months and look forward to a sunny and successful summer with you!

### SPÜLBOY<sup>®</sup> MAKES THE DIFFERENCE!

**VOL. 1**

#### UNIQUE PRE-RINSING AND AFTER-RINSING TECHNOLOGY!

We are more practical! Our separate pre-rinsing and after-rinsing guarantees a fast and smooth process for glass hygiene - in contrast to all the competitors we know.

No interruption of the rinsing process by annoying flushing of water via the middle brush, but automatic circulation of fresh water.

With each rinse, fresh water is also added to the pre-rinsing canister. Our automatic fresh water supply guarantees a constantly good water quality in the pre-wash area.

Look forward to the next issues of Spülboy<sup>®</sup> newsletter, in which we explain the technical progress and uniqueness of our Spülboy<sup>®</sup> products.
